## UPDATE: FLORIDA TOLLS - WHAT YOU NEED TO KNOW

Will you be spending time driving on toll roads during you Florida visit?
Florida's Turnpike Enterprise is making some changes to its toll plazas. Here's what you need to know:

Florida's Turnpike Enterprise began what eventually will become a statewide conversion of turnpike toll plazas from traditional cash collection to all-electronic open road tolling. The first project, completed in 2011, was the southernmost 47 miles of Florida's Turnpike, beginning at Milepost 0 in Florida City, Miami-Dade County. Construction on other turnpike portions is currently underway.
Visit www.FloridasTurnpike.com for details.

Drivers on all toll roads in Florida will see signs at toll plazas about all-electronic open road tolling. This new system eliminates the need for drivers to stop at toll plazas. Cash collection booths will be removed and replaced with overhead readers and cameras that will scan for SunPass transponders and license plates. The new system is considered safer and more convenient.

For drivers who encounter these new toll plazas in Miami-Dade County and don't have a SunPass, Florida's Turnpike Enterprise has established "TOLL-BY-PLATE". Cameras over the travel lanes will take an image of the license plates of vehicles without a SunPass. The plate will be matched to the vehicle's registered owner, and a bill will be sent to the owner for the toll, plus a monthly administrative charge of $2.50. To avoid this charge, drivers are encouraged to contact Florida's Turnpike Enterprise at 1-888-TAGTOLL (824-8655) and set up a pre-paid TOLL-BY-PLATE account. Interested in buying a SunPass? Call 1-888-865-5352 or visit www.sunpass.com.

Visitors driving rental cars should check with their rental car companies about charging their tolls to their credit card.

## Florida Express Lanes

Express lanes are a type of managed lane where congestion is managed with pricing, access, eligibility and dynamic tolling. Express lanes are implemented to address existing congestion, enhance transit services, accommodate future regional growth and development, enhance hurricane and other emergency evacuation and improve system connectivity between key limited access facilities.

When express lanes begin to reach their capacity, the toll is increased to discourage drivers from entering the lanes.

Express Lane currently operating:
**I-595 and I-95**
