

CALIFORNIA STATE PARK SYSTEM

Information Current as of July 1, 2022

As of July 1, 2022, the units and properties of the California State Park System were operated through 21 districts identified on the map by name and with their land area shown in specific colors.

This map is used for the report, *Planning Milestones for the Park Units and Major Properties Associated with the California State Park System*, July 1, 2022, published by the California Department of Parks and Recreation, Strategic Planning and Recreation Services Division, Sacramento, California. Information for the *Planning Milestones* July 1, 2022 map was compiled between July 1, 2021 and June 30, 2022. In the interest of consistency throughout the fiscal year, California State Parks uses information current as of July 1 for official unit/property references in the upcoming year.

The units' parcel boundaries are approximate and should not be considered legal descriptions. The smaller units are indicated by a dot for larger than the area covered by the properties themselves.

California State Parks represents district boundaries with an adapted Thiessen polygon design, where the boundary is roughly equidistant between neighboring units in different districts. This accepted geographic methodology helps visualize the diversity of park territories statewide.
